## WORK EXPERIENCE

### Associate Technology

January 2022 – Present

#### TechChefz Pvt. Ltd., Okhla Delhi

- Developing web applications using Adobe Experience Manager to provide an easy authoring experience to the content authors/marketers.
- Delivering end-to-end solutions based on industry-standard design patterns and requirements analysis, and best practices.
- Integrated AEM with other JavaScript libraries to enhance the functionality of the web applications, created with AEM.
- Converted completely static HTML, CSS, and JS websites into AEM, planning the complete development cycle and designing the websites from scratch to provide the best authoring and user experience.
- Taking part in discussions of component development and interaction with clients.

### Software Developer

August, 2021 – January 2022

#### Edunext Technologies, Noida

- Developed web applications using React.js, JavaScript, jQuery, HTML, and CSS integrated with backend APIs.
- Delivered end-to-end products based on industry-standard design patterns and requirements analysis.
- To give a native app-like experience, developed PWAs of existing web applications so that users can install them on their devices with Push notification services.

- Developed a SPA and dynamic React web application for school's security guard, for parents to register for visits, and security guards to perform QR code enabled check-in, checkout, and live attendance.

### **Software Developer (Contract)**

May, 2021 – July 2021

#### **E-Solutions Pvt. Ltd., Noida**

- Worked for NIIT Ltd, as a web developer to create a S.P.A e-learning platform (LMS).
- Participated in design discussions and client meetings.
- Designed a completely dynamic JS application operated through XML language.
- We used the technologies like javascript, jQuery, XML, shell, HTML, and CSS to dynamically fetch the content and provide a good user experience to the learner, making the web application dynamic so that the application can be manipulated using XML.
- Collaborated with the design team, and operation team on a regular basis to build the platform and implemented the feedback given by QC.

### **Web Developer (Internship)**

October, 2020 – May, 2021

#### **Art Culture Festival, South Delhi**

- Designed a complete web application for client NGO Conferences Expo, where we built the entire website design and development from scratch.
- Developed a responsive website that functions properly on smartphones, tablets, and desktops, and did a proper theming of the website.
- To provide users with a dynamic interface, we designed the UI that consumes APIs.

## **PROJECTS**

### **HDFC Diners Club**

#### **Client: HDFC Bank, India**

- Developed the strategy to break down the existing static website into reusable AEM components.
- Provided the best authoring experience without affecting the end-user experience.
- Used Sass, HTL, and JavaScript libraries to achieve the design and functionality.
- Configured the asset bundler (Webpack) to create the optimized component and template specific asset bundles and clientlibs.

### **Student Dashboard**

#### **Client: Edunext School ERP, India**

- Designed a fully functional student dashboard to fulfill all kinds of student needs related to education.
- Developed the application's modules using HTML, CSS, Bootstrap, Moment.js, React.js, etc.
- Integrated front-end with backend using fetch APIs and the student dashboard is live for more than thousands of students in India.
- Developed a solution for parents and teachers to communicate in students' academics progress.

---

## EDUCATION

### Bachelors of Computer Applications

Indira Gandhi National Open University, India 2021 – 2024  
Participated in a hackathon organized by Deepgram, created [Gmail clone](#)   
for group chat with Voice-To-Text and authentication enabled.

### Senior Secondary (12th)

Central Board of Secondary Education, India 2020 – 2021  
Passed with the third rank in the school.

### Secondary (10th)

Central Board of Secondary Education, India 2018 – 2019  
Passed with the second rank in the school.
